

Touch Periodic Table for HP Prime

Version 3.3.2 (02/18/2018)

By Mickaël Nicotera & Miguel Toro

Setup :

You must have the May 2015 HP Prime firmware's version (7820) or higher to use this program.

Firmware downloading page : <ftp://ftp.hp.com/pub/calculators/Prime/>

Extract from ZIP "Elements.hpappdir" folder.

With the connectivity kit, drag & drop the folder in the gallery application of your HP Prime.

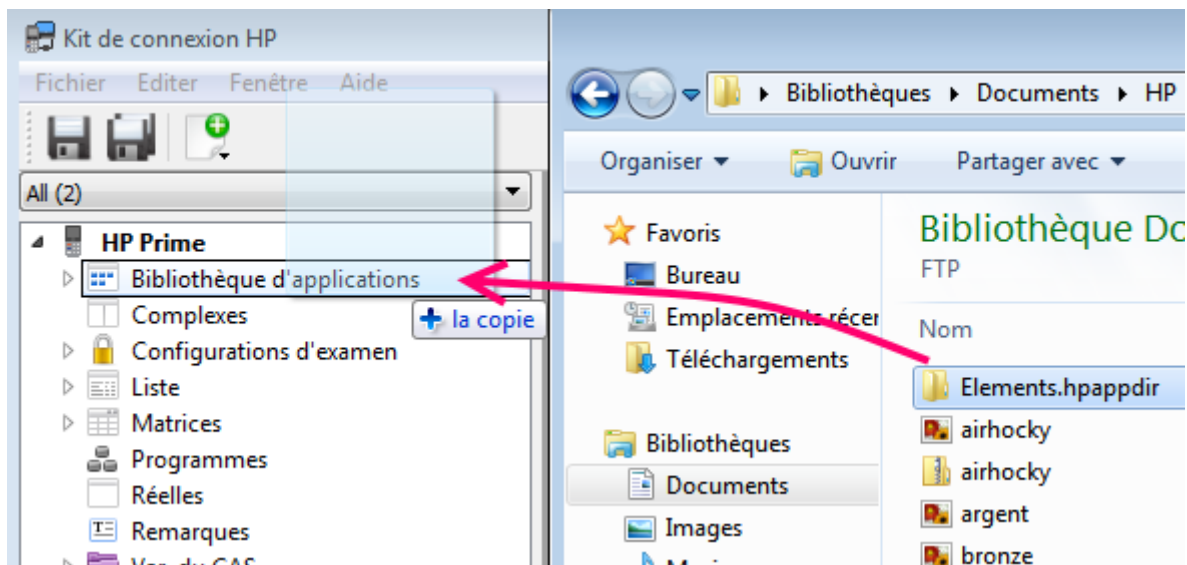

Installation :

Votre HP Prime doit tourner au moins avec le firmware version 7820 pour fonctionner.

Mise à jour du firmware : <ftp://ftp.hp.com/pub/calculators/Prime/>

Extraire du ZIP le dossier "Elements.hpappdir".

Avec le kit de connectivité, glisser et déposer le dossier dans la bibliothèque d'applications de votre HP Prime.

Click on the new icon "Elements" to run the program.

Changelog (2018 version) :

- Added new discovered and named elements
- Fixed some minor bugs

Changelog (may 2015 version) :

- New applet launch with an icon.
- Automatic language detection (English and French).
- New electronegativity graph included.
- New toolbox key with 2 tools : Lewis representation and a picture of Mendelev.
